

**TEENY TINY HOUSE**  
Lyrics with Chords in Brackets  
Copyright 2013 Dana Clark

**CHORUS: [C] I live in a [G7] teeny tiny house**  
**A teeny tiny house**  
**A [C] teeny tiny house**  
**I live in a [G7] teeny tiny house**  
**With a teeny tiny carbon [C] footprint**

VERSE: The [F] walls are [C] stuffed with insulation  
And it's [G7] shaded by a giant [C] tree  
The [F] slate floor is [C] cool in the summer  
So I [D] hardly ever need [G] A.C.

[F] All the gray water [C] from my house  
Runs [G7] out in the yard and [C] finds a dry spot  
[F] Sink and tub and [C] wash machine  
[D] Everything except [G] "you-know what!"

**CHORUS**

**Each verse below follows the same chord pattern as the first verse:**

**/ F / C / G7 / C / F / C / D / G /**

If global warming leaves you in a panic  
You can eat local, sustainable, organic  
It's eco-friendly if you're able  
To grow it in the yard then slap it on the table!

CORN and cabbage in the front yard  
Bunch a chickens in the back  
Kale and broccoli and Swiss chard  
You can look it up in the Farmer's Almanac!

The chickens eat the bugs and weeds  
And in a little bit  
They make all the eggs you need  
And lots of chicken.....poop

And when you put that in your garden  
Lots of veggies grow  
And lots of bugs and weeds for the chickens  
And round and round the cycle goes

## **CHORUS**

I wish I'd lived on Walden pond  
And been best friends with you-know-who  
I read his words now and I think  
"What would Henry David do?"

Cause it's not those who have the most  
Who live on Easy Street  
The richest people I know are  
The ones who need the least

I don't want lots of extra things  
I want just enough  
That way I don't need place after place (after place after place....)  
After place to keep my stuff

By the time I have Grandkids  
I hope I'll be off the grid  
While toilet training I will boast  
"Look down there, kids. That's compost!"

## **CHORUS**
